DETAILED ACTION

1. Claims 1-31 are presented for examination.

2. Claims 1-31 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claims 1-31 of the instant invention are deemed allowable over the prior arts of record. The alignment device of the instant invention uses misalignment data as recorded upon positioning processing of the substrate to calculate the calibration factors. The calculation methodology used is novel over the prior arts. Furthermore, eccentricity angles and distances are used to determine actual amounts of linear and angular misalignments; again, encompassing the novel feature of the calculation process. The limitations of independent claims 1 and 20, in combination with the other elements and features of the instant invention are not taught, disclosed, or fairly suggested by the prior arts record. Thereby, rendering claims 1-31 allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
